LEARN FROM THE BEST

COURSE LECTURER: MARK BREEN PGDIP, MMII GRAD, SFIIRSM RSP, F. ISRM, FIPM, TECH IOSH, EVCTRM

Mark is a vastly experienced Risk Management & Safety professional, operating both strategically and operationally, domestically and internationally. As Director of Safe Events, based in Dublin, Ireland, Mark leads a team that has planned and delivered festival events in Saudi Arabia for hundreds of thousands of people, City of Culture Events for 1,000 people per show in pitch darkness, aerial performance over moving traffic on Dublin City's main street and the world's largest celebration of Irish culture, Fleadh Cheoil na hEireann, which attracts over 600,000 people annually, just to name a few. Mark is an active Fellow of the International Institute of Risk & Safety Management (IIRSM), the Institute of Strategic Risk Management (ISRM) and the Institute of Place Management (IPM). He is a Technical Member of the Institution of Occupational Safety & Health (IOSH) and a registered Occupational Safety & Health Consultant with the OSHCR. Mark is currently the HSEQ Director for a large scale festival in the Middle East, as well as leading Safe Events delivery to the office of Public Works Event Management Unit (OPWEMU) in Ireland, developing SOP's and EMP's for State / Government events.

WHAT OUR

STUDENTS SAY

The course was excellent and a great mix of input from industry experts, group discussion and tasks as well as sharing of practice within the group. Was 100% the right course if you are looking to expand your network whilst learning.

Mark Molloy

Dumphries, UK

The course is a solid investment, with compounding value. The sessions were interesting, practical, with wide-ranging/relevant topics, in class projects, and guest speakers. The ease of access to additional resources and networking of subject matter experts, even without the recorded class sessions is well worth the tuition alone. However, I think the greatest value is the breadth of experience/perspectives with each cohort and the instructor's (Mark) continued curiosity and involvement in mass gatherings/ major planned events internationally that not only made our discussions lively, but will ensure the course content is iterative and fresh. Highly recommend.

Jordan Myers

Vancouver, Canada

FAQS

Why Study Risk & Safety Management for Crowds & Events?

With an enhanced understanding of how to manage risk and plan safe events, along with the University certification, you will be fully equipped to effectively deploy your newfound skills in any number of environments.

Are Risk & Safety Management for Crowds & Events skills in demand?

As the health, safety and wellbeing agenda becomes more prominent, the demand for qualified professionals in this specialist area is growing rapidly. Once you've completed our course, it's a demand you'll be ready to meet.

What skills will I learn?

On graduation, you will have the skills to operate effectively in risk management or safety roles on events, looking after crowds of various sizes. Whether a concert venue, festival site, an airport or a stadium, an on-street event or a party in a ballroom, the best practice approach to ensuring everyone's safety remains the same.
